ELECTRIC LIGHTS FOR PARIS.

Exposition is more extensive than that of any other. When the display was opened to the public August 20, the department of our company had 250 incandescent lights burning, and these have been in operation ever since. The lamps are supplied by several small electric machines; our great motor has not yet arrived. There are twice-bleed indea of the economic value of electricity. Our large motor is designed to serve the latter rurpose. Mr. Edison has always held that electricity is not of manch economic value of electricity to our large motor is designed to serve the latter rurpose. This powerful motor engine now on its way to Paris will be athere in time for the test which will probably come off next morth.

"The Edison Company will soon have its arrangements completed for lighting and furnishing with notion power the district bounded by Wallist, Nassau-st., Spruce-st., and the East River. The orders have been given to-day for fourteen miles of street mains which will be lait this week. If we can get our iron-work made we shall have our apparatus in operation by the middle of November in that part of the city; but the iron manufacturers are backward with their orders. We have already wired 1,250 buildings in that district, requiring 14,000 lamps. There are eighty near working there all the time. Some of the printing offices are the heaviest consumers, one building requiring 1,200 lamps. There are eighty near working there all the time. Some of the printing offices are the heaviest consumers, one building requiring 1,200 lamps. There are four different incandescent cleetric lights—the Edison, the Maxim, the Swann and the Lane-Fox, the last two owned in Lendon. The advantage of the Edison patent is that the light burns with a steady radiance, and there is a

DR. SCHAFF ON THE NEW REVISION.

The Rev. Dr. Philip Schaff, of the New Testament Revision Committee, was asked yesterday by a Tringuage of the Revised New Testament. The Revision is not perfect about the reception of the Revised New Testament. The Revision is not perfect than the revisions had reason to expect. The eld version met with much greater opposition and had to fight its way for fifty years until it superseded its rivals. The present revision will be adopted much sooner. In America it will be adopted first, with all the American suggestions. England will follow. The conservative opposition was stronger there than here, but the judgment of competent scholars turns more and more in its favor. Revolutions never go backward. The revision is not perfect and is a compromise; but it is the most correct version which can be made at the present time. People will not go back from this to the old version, which is very good, but full of inaccuracies and inconsistencies. Common sense prefers the better to the good. All objections made against the new version amount to this; that it depart too much from King James's and follows too closely the original Greek of King Jesus and His Apostles. This is the best recommendation of the revision."

Professor Bartholomew Price, secretary of the Clarendon Press, Oxford, England, in a letter to Dr. Schaff, received a few days ago, says:

The work here has been subjected to very severe criticism, but has, I think, come out substantially ungently and the first of the work are acknowledged, and it will, in my opinion, stand, and eventually replace King James's version.

Burnham was overturned, throwing the charioteer violently to the ground and under the wheels, one of which passed over his body. The horses dashed futiously around the track, and would have rushed upon the other chariot had not some of the attendants succeeded in grasping the reins of the runaways. In the jockey races, which followed, Edward Carpston was thrown completely over his herse's head to the ground, the horse falling on him. Much alarm was caused as the other horses dashed over the course toward the prostrate man, and every one expected to see him trampled to death; but the horses, when they came to him, jumped completely ever him without tonching a part of his body. Dr. Warner was summoned to attend both patients. After making an examination he decided that they thould be sent to Bell-vue Hospital.

ANOTHER STRIKE OF 'LONGSHOREMEN. ANOTHER STRIKE OF 'LONGSHOREMEN.
The 'longshoremen employed on Alexandre's, the Bermuda and the Anchor steamship lines went on strike yesterday for an advance of wages, The men have been receiving 30 cents an hour for day and 45 cents an hour for might work, and the union demands that the pay shall be 40 cents an hour day and night alike. Some of the men demand 30 cents an hour for day and 60 cents an hour for night work, but as the union diclates in preference to the individual members the 40 cent rate will prevail. It is claimed that this is the rate paid on the East River, and the men threaten to remain on strike until their demands are satisfied. The Alexandre Line asserts that it will not consent to the demands. The City of Alexandria is now leading for Hayana and Mexican ports, but will not be delayed in sailing on Thursday as other men will be employed.

The bullet was extracted, but the patient is very weak from Justice Kilbreth vesterday at the Tombs. He gave no explanation of his conduct, and was committed for trial without bail.

THE GUTTENBERG MURDER.

THE GUTTENBERG MURDER.

The Hudson County (N. J.) Grand Jury has been investigating the Mina Muller murder case. Among the witnesses was Simon Muller, the murdered woman's first husband. His evidence brought to light some facts which have not yet been published; among others, that Muller humself was in Guttenberg en May 3, the day of the murder. He said that he was at various places in the township selling cigars, and explained that be had not made that statement at the coroner's inquest because he was not asked. It is dimored that Miller had disappeared since his appearance before the Grand Jury, but the rumor cannot be verified, and is not credited by the authorities. Regina Herrieider, one of the most important withesses in the case, has disappeared from her home in Newark-ave. Jersey City, and her friends profess to be ignorant of her movements. It is expected that Martin Kankowski, the alleged murderer, will be arranged to-day.

A PREFERENCE FOR THE STATE PRISON.

The house of Henry A. Wotherspoon, No. 144
West Twelfth-st., was robbed on Augast 27, and
plated ware, gold ornaments and clothing to the
value of \$550 were carried off. The property was
traced to the possession of Charles Rentz, Thomas
Morris and George Lyons, young men between sixteen and twenty years of age. Yesterday Recorder
Smyth sent them to the Elmira Reformatory.
Lyons, who is sixteen years old, was anxious to be
seen to the State Prison, and when he found that
this wish would not be granted he became obstinate.
He refused to give his pedigree, and when the Recorder asked him if his father was not now in the
State Prison, he replied by asking what that had to
do with the charge against him. When the Recorder
sentenced him to the Reformatory he asked, consentenced him to the Reformator

PROBABLE MUNDER IN PATERSON.

Thomas Kimlia and Christopher Tallent went off on a debauch together at Paterson, N. J., on Sunday night. Yesterday morning about 1 o'clock they halted in Marshall-st., and Tallent proposed to fight. To this Kimlin assented, and both men stripped off their coats. Tailent picked up a stone and threw it at Kimlin. The later pulled out a long kinfe and said, "That's the way you're going to light, eh!" and stabbed Tallent in the breast, the kinfe entering within an inch of the heart. Tallent yesterday was yery low and in a precarious condition. Policeman very low and in a precarious condition. Policeman Steel arrested Kimlin, who was held by Recorder Warren to await the result of Tallent's injuries. Kimlin only returned a short time ago from the State Prison, where he was sent to serve a term for a similar attack on a man.
